REMINDER: MAYFAIR DIAGNOSTICS OFFERS CARDIAC STRESS TESTING

Mayfair's cardiac imaging services include both exercise stress testing and myocardial perfusion imaging (MPI), as well as private pay cardiac-specific CT scans. All cardiac services are offered at our Mayfair Place location.

Exercise stress testing and MPI are supervised by an internal medicine specialist and covered under the Alberta Health Care plan.

For MPI, the patient's rest and stress studies will be processed and then reviewed by a nuclear medicine radiologist. Your patient's results will include the following:

- Rest and stress imaging report.
- Specialist consultation report.
- Treadmill report.

We usually forward all results by the next business day. If you have questions, please contact BD@radiology.ca.
