AT MAYFAIR OUR
VISION IS TO HELP
CREATE A WORLD IN
WHICH EVERY PERSON
HAS CLARITY ABOUT
THEIR HEALTH.

Our compassionate and specialized team leads the way in providing comprehensive screening, diagnostic, and interventional medical imaging services across locations in Saskatoon, Regina, and Calgary.

Owned and operated by over 60 specialized radiologists, we have been providing community diagnostic imaging services in Regina since 2011. We were also the first to bring community-based MRI services to Saskatoon and surrounding areas at our MRI-only Saskatoon clinic.

Mayfair Diagnostics combines expert care with local convenience for a better patient experience.

MEET THE REGINA TEAM

Dr. Patricia Jo

Medical Director, Regina

Dr. Jo grew up in Regina, and completed her Bachelor of Science degree at the University of Regina. She moved to Saskatoon for medical school and did her residency in Calgary. After completing an Abdominal and Interventional Fellowship in Boston, she joined Mayfair in 2017 and became Regina medical director in 2018.

Kevin Johannson

Clinic Manager, Regina

Kevin has worked for Mayfair since 2014 and in the medical imaging field since 2002. He completed his MRT training at SIAST and his MRI training at BCIT. He enjoys talking and working with patients, treating each one as if they were family or a close friend.

MEET THE SASKATOON TEAM

Dr. Darshan Patel

Medical Director, Saskatoon

Dr. Patel completed his undergraduate degree at the University of Calgary and his medical degree at Memorial University of Newfoundland. He graduated from residency at the University of Alberta in 2018. After completing an Abdominal Imaging fellowship at Johns Hopkins in Baltimore, he joined Mayfair in 2019 and became Saskatoon medical director in 2020.

Kelly Procyszyn

Clinic Manager, Saskatoon

Kelly has been an MRI Technologist since 2018. She has been with Mayfair since 2020 and became clinic manager in 2022. Kelly most enjoys being part of the patient journey, helping them and hearing their stories.

MAGNETIC RESONANCE IMAGING (MRI)

We use this advanced imaging technique that uses radio waves and a strong magnetic field to provide very clear images of your body and diagnose subtle abnormalities.

We provide MRIs as a publicly funded, community-based service in Regina and Saskatoon under contract with the Saskatchewan Health Authority **AND** as a private pay service.

ULTRASOUND

We use high frequency sound waves to examine organs, tissues, and blood vessels for abnormalities. These include both general and specialized exams, such as musculoskeletal (joints and tissues), obstetrical (including 3D imaging), and vascular ultrasounds.

X-RAY

The most frequently used form of medical imaging, where a small amount of radiation is passed through the body to create an image. All our X-ray services are offered on a walk-in basis.

TELERADIOLOGY

We offer around-the-clock interpretation of images and reporting for health regions, hospitals, and clinics in rural and remote locations.
