MAYFAIR DIAGNOSTICS OFFERS LIVER ELASTOGRAPHY FOR AUD PATHWAY

We are pleased to announce liver elastography ultrasounds for patients at risk of liver fibrosis due to alcohol use.

The hepatology group within Alberta Health Services has launched an alcohol use disorder (AUD) referral pathway that includes a recommendation for liver elastography as part of a physiologic assessment. Mayfair Diagnostics participated in the development of this enhanced primary care pathway for AUD and will now be performing these exams.

Your patients can receive this imaging at four Mayfair Diagnostics clinics in Calgary:

- Castleridge
- Coventry Hills
- Mahogany Village
- Market Mall

You will be provided with a detailed diagnostic imaging report, which will outline the radiologist's findings and recommendations for follow-up.

To order this service, use the Mayfair Diagnostics General Requisition form and check off "Liver Elastography for Alcohol Use" under the heading "General Ultrasound."

Please fax the referral form to 403-777-3001 or call the Mayfair Diagnostics physician line at 403-777-1999.

If you have questions or concerns, please contact BD@radiology.ca.
