

PARKING VALIDATION SOFTWARE

The easiest solution for retail locations to validate and manage customer parking. Customers can register their own plates in just 3 simple steps:

- 1 Scan **QR Code** with camera app or go to offstreet.io and enter location #10006
- 2 Enter **license plate** number and click "**Park**"
- 3 Data sends to enforcement in real time

A flexible rules engine enables operators to limit individual plates to 1 registration per day, among other settings.
